

California Department of Forestry and Fire Protection (CAL FIRE)

Urban and Community Forestry Program

California Climate Investments

Grants Workshops

WE WANT YOUR INPUT!

The CAL FIRE Urban and Community Forestry Program is soliciting input on draft California Climate Investments guidelines. Participants will learn about CAL FIRE's Urban & Community Forestry California Climate Investment anticipated grant offerings for 2016/2017 and what parameters may be likely. Now is your time to give us your feedback to make the process successful!

Types of eligible projects, eligible applicants, and the application process will be discussed. Technical questions will be answered. Project rating criteria will be discussed. There will be adequate time for questions and answers.

Presentation of the draft guidelines will be at the following meetings. Some of these meetings are being sponsored by the California Urban Forest Council and will have past successful grantees sharing their stories. Come to all or part! Please click for information or to register for free: <http://www.caufc.org/Workshops>.
